Windsor Rosewood Care Center	Training/Staff	4/16/20
Windsor Terrace of Westlake Village	Training/ Staff	4/16/20

*Training: Flexibility to suspend ongoing training requirements. The provider must still orient and evaluate any staff working in the Medi-Cal Subacute Care Unit PRIOR to that staff providing direct patient care.

**Staff: Flexibility to allow providers to cover CNA staffing hour shortages with excess licensed staffing hours, as long as the CNA staffing hour shortages and licensed staffing hour excesses occur on the same day and the licensed staffing hour excesses are used to provide CNA care including, but not limited to, ADLS and turning and positioning of beneficiaries.

***SW: Flexibility to allow, at pediatric subacute care units only, reduction in the number of Service Coordinator/Social Worker (SW) staffing hours, which may result in an increase in the number of RNs available to provide direct patient care. The provider must contact the Department to propose staffing hour levels and ensure that beneficiaries are not adversely affected.
